Education

University of Sheffield

Bachelor of Medicine & Bachelor of Surgery (MbChB)

September 2011 – June 2017

University of Sheffield

Bachelor of Medical Sciences (BMedSci) : Upper Second Class Honours (2.1)

September 2013 – October 2014

Experience

HackMed

2016 – Present

Organiser

Currently organising the 2017 HackMed hackathon with MedTech Sheffield, Major League

Hacking, and Hack Sheffield.

HackPartners

2016

User Experience Designer

As the in-house UX designer during an accelerator program, I worked with a number of startups to design user interfaces for various mobile applications in the rail industry.

AMEE Hacks

2014 – 2015

Lead Organiser

The world's first medical education hackathon. I was asked to lead the 48-hour event as part of the largest medical education conference worldwide, AMEE (An International Association for Medical Education) 2015.

During the event, we reached over 550,000 people on social media, with over 2.7 million impressions.

Google

2014 – 2016

Student Ambassador

Partnering with the medical school and computing departments, I organised a series of events and an Android development course; reaching over 10,000 people across the university, with over 250 students attending our first event.

Health Education England, NHS

2014 – 2015

Advisory Team

Worked with the Technology Enhanced Learning department in the National Health Service (NHS) in the United Kingdom, as part of an initiative to drive innovation across the healthcare education sector in the country; including the construction of innovation hubs, conferences, and hackathons.

Hive

2013 – 2014

Co-founder, Lead Designer, & Interim CEO

Hive is a distraction-free, collaboration tool for small teams around the world. We built software aimed at improving productivity in the workspace.

Our team raised £30,000 on a valuation of £375,000 several months after launching the start-up, and went on to join an accelerator programme in the UK.

UniReq

2012 – 2014

Founder & Lead Developer

Designed and built an online resource offering detailed predictions for applications based on previous admission statistics; reaching over 13,000 prospective university students.

Kairos Society

2016 – Present

Fellow

I was selected to be part of the Kairos 2016 fellowship for entrepreneurs under 25.

**MedTech
Sheffield**

2016 – Present

Co-founder

Founded a society with the goal of connecting individuals with various backgrounds who are interested in science and technology.

**Sheffield Medical
School**

2015 – Present

ICE Mentor

Assigned to a number of junior medical students in a peer teaching scheme, organising tutorial sessions for history taking, examinations, and general medical knowledge.

SOAMS

2011 – 2014

E-Mentor (Sheffield Outreach & Access to Medicine Scheme)

Assigned to several high school students through an outreach programme; aiding them with their university applications and any academic and personal issues they faced.
